

Outpatient Self Check-In Module: Demonstration

STREETS
HEAVER
HEALTHCARE
COMPUTING

This solution aims to make life easier for patients, by enabling any patient with an outpatient appointment to self register their arrival via an easy to use and accessible touch screen kiosk, rather than at the traditional reception desk.

Once a patient has registered their arrival, the reception, nursing and consulting staff are all notified and the patient is directed to the correct waiting area.

This latest development has been designed to work with any touch screen hardware, and is compatible with both our Compucare 7 and Clinical Manager 7 products.

Our Terms and Conditions

STREETS HEAVER SOFTWARE LICENCE AGREEMENT

1. Streets Heaver Computer Systems Limited "Streets Heaver" grants to the person or organisation to whom the software is registered "The Customer" a non-exclusive and non-transferable licence to use on and in conjunction with the customer's hardware provided that the hardware and operating system is compatible with the programs supplied.

1.1 the computer programs specified in the attached Schedule 2 ("the Software"); and

1.2 the operating manuals and other printed literature supplied to The Customer by Streets Heaver to aid the use and application of the Software ("the Associated Documentation"). The Software and the Associated documentation are together referred to in this Agreement as "Software Materials".

2. The Customer acknowledges that he is only licensed to use the Software Materials in accordance with the express terms of this Agreement and not further or otherwise.

3. The Software Materials and all parts thereof (and the media on which they are stored or printed) and the copyright and other intellectual property rights of whatever nature therein are and shall remain the property of Streets Heaver or its licensors. The Customer shall notify Streets Heaver immediately if the Customer becomes aware of any unauthorised use of the whole or any part of the Software Materials by any third party or its agents.

4. The use of the Software Material is for the customer's own internal business purposes only and is restricted to a single server and networked workstations for the number of concurrent users purchased save that:

4.1 if the Software Materials cannot be used with the server because it is inoperable for any reason then the licence hereby granted shall be temporarily extended to use with any other server until such failure has been remedied;

5. The Customer undertakes to treat as confidential all information contained or embodied in the Software Materials and in any specifications of the System made available to the Customer and shall not (save as provided in Clause 5.2 below) disclose the whole or any part of such information other than information in the public domain to any third party without the prior written consent of Streets Heaver.

5.2. The Customer shall be permitted to disclose aspects of the Software Materials to its employees and sub-contractors but only to the extent necessary and only to those employees and sub-contractors who need to know the same. The Customer shall be responsible for ensuring that its employees and sub-contractors are made aware prior to such disclosure that the Software Materials are the confidential information.

5.3. The Customer shall effect and maintain adequate security measures to safeguard the Software Materials from theft or access by any person other than the said employees in the normal course of their employment.
